## **DETAILED ACTION**

### ***Drawings***

1. The drawings submitted have been reviewed and determined to facilitate understanding of the invention. The drawings are accepted as submitted.

### ***Allowable Subject Matter***

2. The following is an examiner's statement of reasons for allowance. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Claims 1-24 are allowed. Claims 1-24 describe a package for an optical fiber having a metal jacket made of low melting point metal surrounding the fiber and heat-shrink tubing surrounding the metal jacket.

4. U.S. Patent No. 6,396,572 to Chang et al. describes a package for an optical fiber (10) having a metal jacket (44) surrounding the fiber and heat-shrink tubing (46) surrounding the metal jacket. Chang et al. does not describe the metal jacket as made of low melting point metal. Further, Chang et al. does not describe the outer surface of the jacket shaped by contact with the heat-shrink tubing while in a molten state.

5. U.S. Patent No. 6,396,572 to Chang et al. remains the closest prior art of record in this application. For the reasons stated above, however, Claims 1-24 herein are deemed to patentably distinguish over Chang et al. and all other prior art of record.

*Conclusion*

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. U.S. Patents Nos. 5,261,018 to Suganuma et al. and 6,240,231 to Ferrera et al. describe optical fiber packages using heat-shrink materials.
